

National Accounts and Loss Sensitive Insurance Programs

Our Insurance Litigators handle a wide variety of issues and disputes arising out of retrospectively rated and large deductible insurance programs across various lines of coverage. Our expertise includes retrospective premiums and deductible obligations, the application of program terms, alleged bad faith and claims mismanagement on the part of insurance carriers and third-party administrators, collateral draws and deficiencies, environmental and mass tort claim allocations, and reinsurance in stand-alone disputes and in connection with large risk, loss-sensitive insurance programs, including traditional reinsurance, as well as off-shore captive reinsurance programs.
